## LITTLE GIRL DIES AS RESULT OF BITE FROM PET DOG

### No Evidence Of Hydrophobia Is Found In Canine In Laboratory Tests

The first human death from hydrophobia to occur in the vicinity of Los Angeles and Glendale in several years was that of little Ayako Hara, 6-year-old daughter of Buichi Hara, a Japanese gardener located near Los Feliz Road and the Los Angeles river, which took place at 2 o'clock yesterday morning as the result of the child having been bitten by a pet dog June 6.

On the morning of June 6 little Ayako was attacked, without any provocation, by a dog belonging to her parents and was severely bitten and torn about the face, scalp and left arm. It was necessary to beat the dog before it would loosen its hold.

#### Canine Is Killed

Dr. A. M. Duncan was called to dress the child's wounds and he advised that the dog be confined for two weeks to ascertain whether it was rabid. When an attempt was made to corner the dog, however, it became frightened and it was necessary to kill it.

The head was taken to the state laboratory in Los Angeles and examined, but no evidence of hydrophobia was found in the brain of the dog. At that time, nevertheless, Dr. Duncan advised that the child undergo the Pasteur treatment.

Thursday the child became quite ill with what appeared to be a sore throat and Dr. Duncan was again called by the parents. The child seemed to have great difficulty in swallowing.

#### Frightened by Water

Before examining the throat the physician offered the child a drink of water, with the result that it became very much frightened and refused to accept it. The father, however, persuaded the daughter to drink some from a teaspoon, although she was still very much frightened.

Dr. Duncan advised the parents to take the child to a Japanese hospital in Los Angeles to be cared for. The case was also reported to the state health authorities.

The child was brought home again late Thursday night and died yesterday morning at 2 o'clock.

## NEW BOOSTER UNIT FOR PUMPING OF CITY WATER

### City Manager Watson Reveals Development Program For Satisfying Thirsty

BY T. W. WATSON  
City Manager of Glendale

The second pumping unit at the San Fernando Road pumping plant arrived yesterday. It is expected that it will be completely installed and in operation within the next ten days. This will give the city of Glendale two complete pumping units at the main pumping plant with a capacity each of 333 miners' inches of water that will be supplied by the five wells at the main pumping plant and raised by these two pumps to the reservoirs that are now under construction and nearly completed.

One of these is located at the corner of Tenth street and Vine avenue in the Grand View district and might well be called the Grand View reservoir. The capacity of this reservoir is 300,000 gallons.

#### Prepared for Future

Sufficient ground has been purchased at this location, however, for the construction later on of a reservoir of seven or eight million gallons capacity. At the rate the city is growing this larger reservoir may be needed within the next three years.

The other reservoir is located at the entrance to Verdugo Canyon between Verdugo Road and the Verdugo Wash. The capacity of this reservoir is 7,500,000 gallons. This reservoir will in addition to being supplied by these pumping units receive the Verdugo Canyon supply from which it will be distributed to the distributing system.

#### No Danger of Shortage

The large trunk line connecting these reservoirs with the main pumping plant now is completed so that with the installation of this additional unit within the next ten days the water supply for the city of Glendale for the present and immediate future will be amply provided for. There has been great danger during the last few years of a temporary shortage of water in the event of the unit that has supplied the larger amount of water during the summer months being temporarily out of commission.

## Some Keep Still And Some Make Noise In Celebrating July 4

Glendale, July 2, 1921.

Dear Katie—Seem' as how next Monday is the Fourth of July and a irritating holiday, I guess better write a little article about it today in advance, cause there's always a lotta bloomin' guys as likes to point a gun at some human' bein' or strivin' reporter like it was a joke and then afterwards just say as how they "didn't know it was loaded."

And maybe it might be no less than me as would be the innocent victim and if such is the case—well you know Katie, as how carnations is my favorite flower.

But after all Katie, the Fourth ain't such a Midsummer Madness as it used to be when we and you was kids.

Of course it is still the delight of every kid's life and it is still the day when the druggist can sell a pound of cure to every ounce of prevention, but to the older folks it is a harmless amusement in itself, cause it gives 'em a excuse to crank up the old fiver and get just as far away from home as is possible, where they can enjoy a shoe box fulla sardines and sandwiches. And after all, what's a Fourth without a Ford.

Well Katie, I ain't got no Ford. I ain't even got a push cart, and I couldn't push it nowhere if I did, cause the boss says as how I gota hustle around in Glendale on the Fourth and keep tab on the doin's of the day.

Well Katie I guess about all the Fourth was invented for anyway was the gasoline and ice cream fountains. But it gives the kids a chance to hear the roar of battle and smell powder and shoot the neighbor's cat. And where there's a fuse there's fire and where there's a fire, there's insurance to pay. Ain't it so. And the doctors get the dollars and grandmas get nervous prostration.

And while the Fourth of July only comes once at a time, everybody likes to celebrate it by makin' a little noise or by keepin' still, anyway it's better to be safe than insane. Ain't it so Katie?

Yours for the weak end,

E. C. HALE.

## BUSINESS MEETING HEARS PLANS OF LOCAL LEGION

### Weekly Newspaper Proposed In County; Celebration Is Planned For Glendale

The regular weekly business meeting of Glendale Post No. 127 American Legion, took place last night at the Legion hall on East Broadway, with a light summer crowd in attendance. All of the officers were present, except Adjutant Harry Bracken, whose place was filled by the ex-treasurer, Joe Wilson.

Among a number of questions discussed during the evening, one of the most important was that of the local post taking part in the publication of a proposed official Los Angeles county American Legion weekly newspaper. A communication was read from the Inter Post Council of the county informing the members of the local Post to the effect that the American Legion Publishing company of Los Angeles county has been incorporated and organized for the purpose of acquiring and publishing the American Legion Weekly Bulletin, with the ultimate purpose of turning it over to all Posts in Los Angeles county as their official paper.

After a lengthy discussion it was unanimously decided by the local Post to subscribe to one share of the stock for every member of the Post, such information to be immediately forwarded to the Los Angeles headquarters.

#### Owen Emery, "Reporter"

Owen C. Emery was elected assistant-adjutant, his duties to be the collecting and writing up of all local copy for the publication.

The question of so-called "gold-brickers," who have been preying upon the public purse in the name of the ex-service men, was taken up, the local Post going on record as condemning any such practice in Glendale. They further unanimously voted to issue a warning through the press for the protection of the public against grafters who solicit money for various pretenses of and for ex-service men.

Following the report of the boxing committee, which was made by Charles Potter, who succeeds Allen Bullis as chairman, on last week's six-bout exhibition, it was unanimously decided to send letters of appreciation to the commanders of Ross Field and of the destroyer Wood for granting leaves of absence to the boys who took part in the recent show.

Complete arrangements will be made in the near future, and announcements made accordingly.

CHICAGO, July 2.—The majority of the 2,000,000 railroad workers were held at bay today by conservative leadership. Rail union leaders, meeting here to decide what action to take on the 12 per cent wage cut ordered by the United States railroad labor board, stood out against a walkout in spite of the fact that members of unions are overwhelmingly opposed to the wage slash. Attitude of the rank and file is shown by unofficial counts of referendums taken among some unions and by statements of some leaders who sounded out their men before they came to the conference.

#### "THUNDERS OF SILENCE"

## Reception Is Given To New Members At First Baptist Church

A most delightful reception was given the new members of the First Baptist church last night, 125 new members being present to receive the hand of welcome by the old members.

Roy L. Kent called the assembly to order, and presented the following program: Piano solo by Miss Beatrice Dosssee; words of greeting to the new members by O. T. Walker and Mrs. J. L. Gray were responded to by C. W. Elliott and Mrs. L. Alexander. Mrs. Jordan and Mrs. Hosking rendered a pleasing piano duet, after which Howard Kent gave two very pleasing recitations; then Margaret Chase delighted everyone by her two selections in recitative. Mrs. Neighbors sang two beautiful songs which were greatly enjoyed by all.

Beside the reception to new members, the occasion marked the second anniversary of the pastorate of Ernest E. Ford. Many words of appreciation and esteem were spoken by those who brought the greetings, and by those who responded. At the close Mr. Kent called the pastor and his wife to the front and with a few fitting words presented them with a beautiful basket of flowers expressive of the love and good-will of all present.

Mr. Ford came to the pastorate of the Baptist church two years ago from the Highland Park Baptist church. During those two years the membership of the Young People's society has been tripled. An advance has also been marked likewise along financial lines, as two and a half times as much money has been contributed this last year as was received two years ago.

Like many of the other churches of Glendale, the Baptists will soon be obliged to build to accommodate its fast-growing congregation and Sunday school.

After the program, all went to the social hall in the basement, and entered into a contest to see who could get the largest number of signatures on a card provided by the social committee. The new members getting the names of the old members, and vice versa. Following the getting-acquainted game, refreshments were served.

Mr. and Mrs. Ford received many congratulations, and the hope that the relationship of pastor and people, which had been so pleasant during the two years gone by, might be continued for many more years to come.

## Better Than 50-50

If ever the time comes when  
you are a non-productive unit,  
your own comfort and peace of  
mind as well as that of anyone  
who may look to you for sup-  
port will depend, not upon  
what you may have made in the  
past, but solely upon what you  
have then and there intact in a  
CASHABLE reserve or CASH  
income.

The experience of "the Provi-  
dent" is that of all men in-  
sured in middle life, 68 per cent  
are living at 65, and 55 per cent  
at 70. An endowment, then,  
maturing at 60, 65 or 70 is the  
correct form for the average  
man. Don't you agree? Let  
me show you how little such a  
contract actually costs.

It is reported that Miss Sylvia  
Jocelyn, motion picture actress, re-  
siding at St. Francis court, Holly-  
wood, is to become the bride of Jack  
Dempsey shortly after today's bat-  
tle. While it is known that the  
champion and the local actress are  
warm friends, the report of any plan  
of marriage is denied by Mrs. H. L.  
Dougeny, mother of Miss Jocelyn.

### L. A. Jailer Suspended

Sheriff William J. Traeger has  
suspended George Gallagher, for fif-  
teen years county jailer, on the  
ground, that the former jailer made  
a change in his testimony in the  
ouster suit against former Sheriff  
John C. Cline. The matter will be  
passed upon by the Civil Service  
commission on July 15.

### Japs Near State Line

An industrial army of 50,000 Japs  
is soon to settle on a large tract at  
Sinaloa, Mexico, just across the bor-  
der, where a large acreage is to be  
developed.

### To Aid Veterans

Mrs. Anita Baldwin has offered  
to contribute \$50,000 towards a me-  
morial home for former service men,  
providing all of the organizations  
working in behalf of the disabled  
soldiers will concentrate on a mam-  
moth drive for the project. It is  
planned to establish a home that will  
cost at least \$1,500,000.

### Congregationalists Elect Chief

Angeles.

### New Highway Opened

The new highway between Los An-  
geles and Imperial Valley will be

ers for the construction of this high-  
way.

### New Council Meets

The newly elected city officers of

## Mrs. Horner And Her Daughter Depart East

Mrs. Mabel Horner and daughter,

many points of interest en route, and  
will spend some time in Chicago be-  
fore going to their former home in  
Philadelphia, where they will be en-  
tertained by numerous relatives and  
friends. Mrs. Horner's mother, Mrs.  
Aicholtz, with her grand-daughter,  
Virginia, made the same journey last  
summer, but are remaining in Glen-  
dale while Mrs. Horner is away, to  
look after the welfare of the estimable  
"Master" of the Deestrick  
Skule, Mr. Horner; which is well,  
as those who saw that delightful  
comedy feel a most decided interest  
in seeing this important actor there-  
in well cared for, so that he may be  
ready for future efforts along the  
same line. Mr. Horner will join his  
wife later in the summer, and after  
a short visit in their old home, will  
return with her.

## Glendale Folk Return From Week's Outing

a week's outing at Paso Robles where  
they visited Mrs. Roeder's daughter,  
Mrs. P. N. Weaver, whose husband  
owns a beautiful eighty-acre almond  
orchard just outside the city. The  
week was crowded with good times  
and sight-seeing trips about the  
country as the weather was at its  
best and the motor trip back was one  
of uninterrupted pleasure.

It isn't every man who can master  
his pleasures. Many a fellow at-  
tempts to ride a lugging hobby.

## BABY GRANDS

What a mark of refinement is the Artistic Baby  
Grand in the modern home! Heretofore the floor  
space needed, coupled with the added cost, has  
limited the proud owners of Baby Grands to a few  
of ample means and large homes, but thanks to the  
ingenuity of the great family of piano builders, "Behr  
Bros." have perfected the smallest perfect grand piano in  
the world without sacrificing any of the true grand tone  
qualities; in fact the "Behr Bros." can be placed in any  
corner that will accommodate the ordinary upright piano.

Modern manufacturing facilities and our improved method of distribution  
places this exclusive musical instrument within the reach of the most modest  
income, in fact no more expensive than the upright piano of moderate price  
and on terms to suit the convenience of the purchaser.

A liberal allowance for your "old" piano. See this remarkable instrument at  
our warerooms and learn of its tonal qualities by comparison with the "old  
time" larger pianos.

## This Sailor Arrested For Having Two Wives

CHICAGO—Edward Brewer, formerly of the navy, lived up to the saying "a wife in every port" so well that he has landed in jail. Two women claim the young sailor as husband. A Boston girl was the first victim and it was through her efforts that Brewer's double dealing was discovered. Several months ago the Boston wife began wondering why she did not hear from her husband, who was serving at the Great Lakes naval station. She came west to investigate. At the station she found Brewer had been discharged, but obtained the address of his "nearest of kin," a wife in Evanston. Somewhat mystified Mrs. Brewer of Boston called on Mrs. Brewer of Evanston. The combined forces located Brewer in Kenosha, Wis., where he was jailed.

"Two's two too many," the sailor told the policeman. "How many years do you think I'll get?"

## BIBLE SCHOOL WILL START ITS WORK NEXT TUESDAY

### Nine Churches Co-Operating In Educational Courses Of Religious Study

Everything is now in readiness for the conduct of the Glendale Daily Vacation Bible school, which begins at 9 o'clock next Tuesday morning. The work is interdenominational in character, without charge, and is open to all boys and girls whose ages are 4 to 12 inclusive. Specialists have been secured as instructors, and nine churches are co-operating to make this work a big success.

At only one church is all of the work provided, the Glendale Presbyterian. In other sections of the city the schedule for those 4 to 8 years of age provides classes at the First Baptist church, Tropic Presbyterian, Casa Verdugo Methodist and West Glendale Methodist.

### Where They Will Report

The boys and girls 9 to 12 will report at the First Congregational church, First Methodist and Central Avenue Methodist. Naturally these students will attend as near their places of residence as possible.

The curriculum has been carefully worked out in keeping with the best experience of other cities, and covers such common sense and helpful subjects as Bible stories and drills; missionary work; health and habit talks; basketry, clay modeling and other forms of craft work; music. Supervised recreation will add interest to the study periods. Carl C. Seitter is superintendent of this novel school.

## Birthday Breakfast To Miss Leone Shattuck

The dainty "Birthday Breakfast" planned this morning for Miss Leone Shattuck by the staff at the city library was a complete surprise to the honoree. Miss Shattuck was invited to breakfast by Mrs. J. C. Danford and when she arrived was asked to go to the library on an errand. As she is in charge of the juvenile room it was thought fitting to have the pretty tables spread downstairs, and when she arrived there she found the buxom all assembled. Red, white and blue decorations were used, the place cards being tiny firecrackers, and following the delicious three-course meal Mrs. Danford presented the guest of honor with a pretty little hand-painted sugar and creamer, saying that they were suggestive of the "sweetness of life and the milk of human kindness."

Those present were the intimate friends of the honoree and the library staff, including Miss Doris Ingledue, Mrs. Fern Kallinback, Mrs. Dorothy Lee Weller, Mrs. Charles D. Shattuck, Miss Laura E. Roberts, Miss Helen Hartwig, Miss Alice Green, Miss Nellie Rowe, Miss Laura Wilford Brown and Mrs. C. D. Danford. Mrs. Kate Williams and Miss Dorothy Williams sent regrets.

## Mr. and Mrs. A. Beach Have Delightful Time

Mr. and Mrs. A. W. Beach, 633 North Brand boulevard, who left Glendale about the middle of June write from Glacier park, where they now are, that they are having a most delightful trip, everything lovely, no motor trouble of any kind and nothing whatever to mar the long and leisurely tour. They visited the Yosemite valley and stopped at Berkeley and visited their son, then to Seattle, and from there across the northern part of the state to Glacier park.

They expect to spend the 4th of July in Augusta, Montana, and will remain there two weeks. From Augusta they will turn their faces homeward, but have no intention of hurrying.

Their daughter, who has been in Augusta since February will return with them, and they will reach Berkeley some time in August in time for her to enter school there this year. They do not expect to reach Glendale before October, and are taking all the side trips that invite them to lengthen their stay.

## Mrs. Ella Richardson Back From King City

Mrs. Ella Richardson of 317 North Brand boulevard returned yesterday from King City, where she has spent some weeks with her daughter, Mrs. Shives Mitchell. Mr. and Mrs. Shives Mitchell, with their two babies, Billy and Fergie, returned with her and will visit in Glendale until July 20.

Will and Johnny Richardson, who motored up to Sacramento last week to enjoy the insurance Men's convention there and have been visiting old friends in the north, joined the party at King City and returned with them, so there is a veritable family reunion at the Richardson home this week-end.

On the Fourth Mrs. Richardson accompanied by her family, Mr. and Mrs. Sid Brown, and Mr. and Mrs. Dale Vaughn and family will enjoy a quiet family picnic at Griffith Park.

## POLICE WILL PINCH YOU IF RULES ARE BROKEN

Small Evasions Of State Motor Vehicle Act Considered With Major Offenses

This is the season when police authorities throughout southern California are going to consider "pinching" motorists who evade the law.

Small evasions are going to be considered along with major offenses; penalties will be imposed for minor offenses as well as for reckless driving.

Officials of the Automobile Club of Southern California in a desire to help motorists as far as possible in their knowledge of what is unlawful, at this time, have just issued the following list of suggestions.

Look them over and see if your car and yourself come up to all the specifications required in the laws of this state, which apply everywhere:

### Do You Know?

Are your number plates securely fastened on the front and rear of your car?

Are they at least sixteen inches above the ground?

Are they fastened so as to prevent them from swinging?

Are either of the number plates so mutilated as to render it unintelligible?

Is either number plate obstructed by a bumper or tire carrier?

Are the names of the registered and legal owners signed on your certificate of registration?

Is the certificate of registration posted in the container furnished for it by the Department, in the driver's compartment of your car?

### How About This?

Do you carry your operator's license with you at all times while operating a car?

Is it signed?

If you are a chauffeur, do you carry your chauffeur's license with you and wear your chauffeur's badge in a conspicuous place on an outer garment while operating a car as chauffeur?

Are your headlights equipped with an approved headlight lens?

Are your headlights equipped with light bulbs of a candle power approved for the type of headlight lens used?

If the type of headlight lens used requires a tilting of the headlamps, are your lamps so tilted?

If your car is equipped with a spotlight, is the spotlight so constructed that it cannot be manipulated from the driver's seat so that the main ray of light will rise more than 42 inches above the ground when measured at a point at least 100 feet in front of the car?

### And Some More Questions

Is there a red light on the rear of your car?

Is it obstructed by a bumper or tire carrier?

Is it visible at night 300 feet to the rear of the car?

Has it a white light illuminating the number plate so that it can be seen at night from 50 feet to the rear?

Is your horn or bell in working order?

(Sirens legal only on police or fire vehicles).

Are your brakes in good working order and of sufficient strength to stop the car or to hold it on a grade?

If your car is a truck which is so covered, loaded or constructed that it obstructs the driver's view of the highway to the rear, is it equipped with a rear sight mirror?

If your car is a commercial vehicle, is it equipped with an adequate windshield?

Do you carry baggage or other equipment on the left running board of your car so that it extends more than 12 inches beyond the body of the car?

## FINDS SECRET OF HIS ORIGIN

The theory that he had sprung from some remote protoplasmic organism, that his twenty-times-great-grandfather was a wire-haired baboon in the wilds of Abyssinia and other near-Darwinian monstrosities, were all regarded by Sergt. John Burrows of the Marine Corps as so much "bunk." Still his mind was never at rest.

The sergeant re-enlisted after the war and was ordered to Guam.

The other day a letter was received at the Marine Corps recruiting headquarters. It came from Sergt. Burrows at Guam.

"At last," he stated, "I have discovered where my ancestors have come from."

The sergeant explained that natives of the island had enlightened him. In accounting for the origin of man, they said that everything in the world was derived from a certain rock on the island of Guam, which first became human, then a stone, and gave birth to all men. From this island men were scattered all over the world. They forgot their language and "talked like fools without understanding one another nor knowing what was said."

## FORD DEALERS NOW HAVING CLASSY QUARTERS

Salesrooms Throughout This County Being Made Show-Places By Dealers

The Los Angeles Ford dealers have enlarged and increased in numbers even as the Ford car has multiplied. The registration of cars and trucks in southern California show that an average of a little better than 47 per cent or almost half the cars and trucks sold in southern California are Ford models.

The latest additions along the row of Ford dealers, which brings the total up to 17 agents, are the firms of Atterbury-Kemper who are now located at 267 South-Western avenue and Lloyd L. King, who is now doing business at 160 South Pacific boulevard, Huntington Park.

**New Places of Business**  
H. W. Atterbury was formerly of the firm of Fahy-Atterbury while Lloyd L. King was for many years sales manager of J. A. Nadeau.

The garages in which the Ford dealers used to do business a few years ago have been replaced in all cases with as fine show rooms as are to be found along the line of car distributors in Los Angeles. Not only are they magnificent buildings but in most every one the dealers have had to enlarge time after time to accommodate an ever-increasing business. The Los Angeles Ford dealers combined sell an average of over 1500 new cars each month.

### Service Is Motto

In order to give the quickest and best possible service these dealers have all installed the latest and finest repairing methods and machinery. They also keep on hand at all times a complete stock of genuine replacement parts so that no delay may be incurred by a Ford owner coming in for a necessary part.

"Service first, last and all the time," is their motto and every one who has dealt with these dealers know that when he takes his Ford machine in for repairs, the quickest, best and least expensive service that it is possible to give will be rendered.

## Vaudeville Headlines Program At Glendale

Tonight is another big night at the Glendale Theatre when the big show of Meiklejohn and Dunn vaudeville and feature picture will be offered at regular prices.

Headlining the vaudeville program is the Pantages act, "You're Flat," by DeMichele Brothers, musical comedians. This act is one of the greatest of its kind. Coleman Goetz, America's youngest song writer, who also has just completed a tour of the Pantages circuit, will introduce some of his latest song hits. He is assisted by Harry Cantor.

"The Follies of 1921"—introducing three clever girls—is a song, dance and comedy revue—is one of the most pleasing juvenile acts of the year.

Barber and Corio, two newsboys who have made a tremendous hit with their song specialties, will close the program. Eva Novak will be seen starring "The Smart Sex," a feature film story about a stranded show girl who owned a goose that laid golden eggs.

## 12 Hours To Oakland With Murphy At Wheel

Joseph T. Murphy of Miller & Murphy returned Friday morning from a rapid trip to Oakland. The running time both going and returning each totaled twelve hours, in the smooth running Scripps-Booth. Mr. Murphy completed negotiations while in the bay district for an automobile connection of importance, which will be formally announced within a few days.

## Missourians To Picnic On 100th Anniversary

The Missouri picnic at Lincoln park, Saturday, July 9, will be the Centennial Jubilee honoring the hundredth anniversary of the day Missouri was admitted into the union. The chief feature of the picnic will be a parade. Prizes are being offered for the best historical float and for the best decorated machine. Athletic contests and games will be the order of the day.

### STAR PERFORMER

A sudden sound of whistling disturbed the slumberous air of the classroom, and the strains of "I'm Forever Blowing Bubbles," floated over forty small heads bent over forty small slates.

"Who's that whistling?" screamed the teacher, as soon as she had recovered from her surprise.

"It's just masef," answered Sandy Macpherson, with true Scottish imperturbability. "Did ye no ken ah could whistle?"

The staff of the library of the League of Nations in Geneva is composed entirely of women.

## C. E. Committee Says 'Thanks' To People For Entertainment

Editor The Evening News: The entertainment committee for the state Christian Endeavor convention which has just concluded a most successful session in our midst wishes to thank the citizens of Glendale for their kindness and hospitality shown in taking care of our delegates. Without your assistance the convention could not have been the success everyone proclaimed it to be, and so in no small manner all those who so generously opened their homes are responsible for this most profitable convention.

Many of the residents of our city signified their willingness to entertain delegates, but did not receive any, and we thank you, too, for your efforts in our behalf, and assure you that your work is no less appreciated than that of those who so royally entertained these visitors.

### UNIMPORTANT

"Miss Mackay-Smith, who has just married Captain Boy-ed," said a Philadelphia woman, "was very careless about religious matters when a little girl—and she a bishop's daughter, too!"

"Once in Sunday school her teacher said to her:

"How old are you, dear?"

"Eight, going on nine," the little girl answered.

"Who made you?"

"Oh," said the little girl carelessly, "papa told me yesterday you made me, but I've forgotten his name now."

## EDDIE WINFIELD TO DRIVE IN HANFORD RACES JULY 4

Sam Durand, His Partner Here  
In Garage Business, Will  
Act As Mechanician

Glendale auto racing enthusiasts will be carefully scanning the results of the 50 mile event to be staged at Hanford on the afternoon of the Fourth, due to the fact that a local man will be one of the entrants in the affair. He is no other than Eddie Winfield, of the Winfield & Durand garage. His partner in the business, Sam Durand, will act as his mechanic in the race.

These two young men left this morning for the northern city, driving up in their racing machine. They will take their time on the trip, expecting to reach their destination early tomorrow morning, in time to make a few trial spins around the track before noon.

Ford With New Carburetor  
The car that will be driven by the local pilots is a rebuilt Ford, with a number of additions which will help to produce more speed. The motor is a brand new one and has been geared up so that it will be capable of traveling at a rate of 85 miles an hour.

The special part of the equipment which is expected to keep the machine in the running, is the new carburetor which has recently been invented by Mr. Winfield. Both the inventor and his partner are of the opinion that their product is better than that of any other concern, and it will be placed on the market in the near future.

## Reply Is Made To Dr. Riley's Lecture

Editor The Evening News:—In the report of Dr. F. L. Riley's lecture appearing in your issue of June 22 the doctor intimates that Mary Baker Eddy, the founder and discoverer of Christian Science, received her inspiration from one Phineas Quimby.

It is surprising that at this late day this hackneyed and thoroughly disproved falsehood could be uttered by any well-informed person. The doctor makes the erroneous statement that immediately upon the passing of Phineas Quimby the first edition of Mrs. Eddy's book, "Science and Health with Key to the Scriptures" appeared. The facts are that Mr. Quimby died in 1866 and Mrs. Eddy's book was not published until 1875. Of this Mrs. Eddy writes: "It was after the death of Mr. Quimby and when I was apparently at the door of death that I made the discovery of the principle of divine science. After that it took ten years of hard work before the first edition of "Science and Health" was published in 1875."

In Sibly Wilbur's book, "The Life of Mary Baker Eddy," the author, who thoroughly investigated the Quimby teaching, declares that "Quimbyism is not embryonic Christian Science; it is merely mesmerism gone astray." "Quimby," she tells us, "was not even a religious man. He habitually and stoutly denied the Messianic mission of Jesus." All who have read the teachings of Mrs. Eddy know that Christian Science is wholly founded upon the teaching of Jesus and is essentially Christian in every particular. Christian Science repudiates mesmerism or hypnotism and warns its students of the dangers involved in their use.

In 1883 Mrs. Eddy was compelled to enter suit against one Edward J. Arens for infringement of copyrights by filing a bill in equity in the United States Circuit Court at Boston. Arens' defense alleged that the copyrighted works of Mrs. Eddy were not original with her but were originally composed by Mr. Quimby. Arens was unable to present the slightest proof and finally informed the court that he had no evidence to submit. Whereupon the court issued a perpetual injunction against Arens, thus placing the seal of the United States Court upon the rights of Mrs. Eddy as the author of her works and settled for all time the validity of her copyrights.

Sincerely yours,  
WILLIAM E. BROWN.

## J. W. Lawson Invests In Monrovia Realty

J. W. Lawson, who was formerly engaged in the real estate business here, has moved to Monrovia, where he has invested heavily in real estate. Mr. Lawson has purchased several large pieces of property in the heart of the business district, among which is the site of the Presbyterian church and the ground known as the Shield frontage. The new owner expects to erect store and office buildings upon both of these sites in the near future. Official figures from the Chamber of Commerce show that Monrovia real estate has doubled in value during the past decade, having increased over \$2,000,000 during this period.

## Billion Dollar Cut In U. S. Expenses Is Administration Hope

WASHINGTON, July 2.—A billion dollar cut in government expenses during the year beginning July 1 was the hope of the Harding administration.

Congress has appropriated about \$4,000,000,000 for the year beginning July 1. By putting the new federal budget into operation immediately instead of waiting a year as originally planned, President Harding and Charles G. Dawes, budget director, hope to make a 25 per cent saving. The plans will be explained to a group of cabinet officers, bureau heads and chief clerks where Harding will preside. It is the first meeting of its kind ever held.

GUN WAS ANCIENT'S CLOCK  
Back in the fifteenth century when the telling of time was not a matter of seconds, and clocks were more famous for their wabbles than for their reliability, it was not uncommon to have the best of them vary from five minutes to half an hour in a single day.

In the distant island possessions, where clocks were few and where often colonies of several hundreds had no timepiece whatever, a scheme was evolved that included a cannon and a reading glass.

The hour glass was fixed into a holder that held it level with the barrel of the gun and about six inches above the touchhole. As the sun swung to the zenith the rays were collected by the glass and slowly moved until they touched a little pile of powder at exactly noon, sun time.

The thunder of the gun notified all within range of its roar that it was noon, and such hour glasses and watches as were to be found were set on the spot.

As the earth is not exactly true in its swing around the sun the glass had to be altered twice a year, so that it would still be true.

## YOU NEVER CAN TELL

At a dinner a young man, whose chief claims to distinction seemed to be an eyeglass and a drawl, said to a man near him:

"Beastly nuisance, isn't it? Spoke to that fellow over there—took him for a gentleman, and found he had a ribbon on his coat. The confounded head waiter, I suppose?"

"Oh, no," replied the other, "that is the guest of the evening!"

"Hang it all, is it?" said the other. "Look here, old chap—would you mind sitting next to me at dinner and telling me who's who?"

"I would do so with pleasure," was the reply, "but, you see, I'm the 'confounded head waiter!'"

## U. S. Government Now Living Within Means Says Treasury Report

By RALPH F. COUCH  
United Press Staff Correspondent

WASHINGTON, D. C., July 2.—Living completely within its income, according to official treasury statements covering all but two days of the fiscal year, the government today opened its books to a new regime of economy and efficiency.

Meeting in the office of Budget Director Dawes this morning, President Harding, Dawes and budget representatives of all government departments made detailed plans for the fiscal year, 1922, to be far more economical than the fiscal year which ended yesterday.

Up to June 28 the government's books showed:

Ordinary receipts, \$5,600,141,093.  
Ordinary disbursements, \$5,041,416,109.

Surplus of ordinary receipts over ordinary disbursements, \$558,724,984.

Grand total receipts, \$14,463,439,144.  
Grand total disbursements, \$14,201,507,366.

Surplus of grand total receipts over grand total disbursements, \$261,931,778.

During the period of these reports the national gross debt has been reduced approximately \$1,000,000,000, or about 5 per cent, other treasury statements show.

The figures indicate that for the first time since the war period the government has spent less than it took in, including borrowings.

## Three Mammoth Picnics Planned At Long Beach

The next three mammoth picnic reunions of the summer will be staged at Long Beach in beautiful Bixby Park. These reunions will overlap all others and will together draw 100,000 enthusiastic picnicers.

The loyal Illinoisans will meet Saturday, July 23, the Nebraskans, Saturday, August 6, and the Iowans, August 13.

Far-reaching plans are under way for all three and success is always assured for Long Beach alone has 25,000 former residents of these states.

Hundreds of California towns and thousands of the home state communities will contribute delegations. County registers, hot coffee, souvenir badges, basket dinners and programs will feature all three picnics.

## Cost \$10,000 Yearly To Dress Mere Man

NEW YORK—The best dressed man in the world looks like one thousand dollars when he steps out formally to dinner, the elite of Fifth avenue clothiers told the United Press.

In a year he spends at least \$10,000 for his modern rig leaves.

Here is what they say is the best that money can buy and what it takes to buy it:

Dress suit	\$250
Top coat	125
Silk hat	35
Shoes	20
Shirt	15
Stick	15
Accessories (including a little jewelry and personal incidentals)	540
Total	\$1000

When he lays in a stock of twenty outfits for dress, street, business, dinner, afternoon, theatre, sport and motor wear with a yachting costume, the yearly bill will run to \$10,000 it was said.

The allied nations protect Belgium and now Belgium has become protector of tiny Luxembourg—which in turn ought to enter the business of protecting someone else.

## Loses Papoose; Baby? No, It's Only Coat

SEATTLE—"I'd like to make a report to the police department about a lost article," said a voice over the phone to the desk sergeant at headquarters.

"All right, what did you lose?" replied the sergeant.

"I lost my papoose. I lost it on a street car."

"Just a minute," yelled the sergeant, ringing hastily for a member of the emergency detail. "Now what is the description of the papoose?"

"It was gray—a gray 'papoose' coat," replied the complainant.

"Piddlesticks," or words to that effect, replied the sergeant. "Another false alarm."

## NUMERICALLY SPEAKING

Pat, lately over, was put to work in a railroad freight yard, but was later transferred to the telephone switchboard. The buzzer buzzed and he approached the instrument cautiously.

"Hello," he vouchsafed.

"Hello," answered a voice. "Is this eight-six four-eight?"

"I am not," retorted Pat wrathfully. "Tis in the yards ye'll find the box cars."

A snake may shed its skin, but never its fangs.

NOT LIKE MOTHER MADE  
Mrs. Feddup was burning with righteous indignation as she bounced into her neighbor's house.

"Gracious! Now what's the matter?" was the anxious inquiry.

"You might well ask what's the matter!" cried Mrs. Feddup in a voice of choked rage. "Why, it's that brute of a husband of mine again. He's gone a bit too far this time. I won't put up with him another day."

"My gracious! What has he done now?"

"Done! Why last night he actually complained that my mustard plasters were not as hot as those his mother used to make!"

## STUNG

A young man and his wife were staying at a hotel in the country. On the evening of their arrival his wife went up to bed and left him smoking his pipe.

Presently he, too, went up, but it was dark, and he could not find the room. After a good deal of wandering about, he thought he had at last found it.

He tapped on the door and said, "Honey! Honey!"

A voice from inside the room answered: "Go away, you idiot! This is a bathroom, not a beehive!"

## CAN'T BACK THEIR CARS

"Ever notice how the galls drive a car?" inquired the garage helper.

"Not partic'ly? Well, y'oughta."

The janes drives along the streets like they owned the burg, sneaks by the cops an' trolleys an' gets away wit' moider gen'rally, but when they comes in the garage to put up the boat for the day they falls down.

"Most of 'em steps on the ex-hilarator an' drives in speedy, but they don't roll inter place, but leaves the car on the floor, careless like, an' say, 'you'll put it away, won't you, boy?'"

"There's a reason. Most of the dames don't know how to back up. The reverse gear means nothin' in their young lives. They usually have to go around the block when they want to go back the way they come from. Watch 'em an' see if I ain't right."

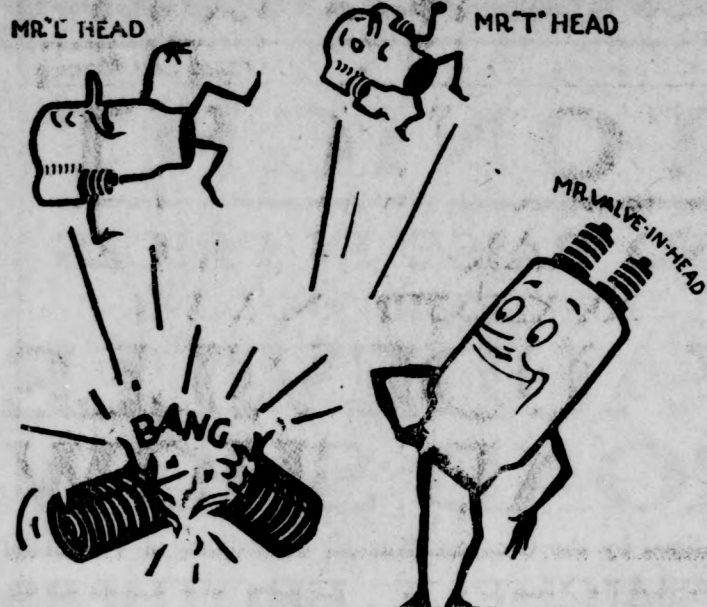

If a stranger asks you for the time on a lonely street late at night, better tell him that another fellow grabbed it a block farther down.

### INCREASE IN PERMITS

In looking over the reports of local building during the past six months it is seen that 931 permits were issued during that period as compared with 531 for the first half of 1920. Almost a 2 to 1 increase.

## GIVES ESTIMATE ON DEAR KATIE'S FRIEND GARDENA AVENUE IMPROVEMENTS GOES ON VACATION THAT IS 'DREAM'

Pacific Electric Company's Figures Are Reported To City Trustees

Spends Two Weeks—Time Is Cheap—And Returns All Ready To Go Again

T. W. Watson, city manager, at the meeting of the board of city trustees Thursday, submitted a communication on the cost of improving Gardena avenue over the Pacific Electric Railway company's right-of-way, as follows:

"Under date of June 9, the city attorney reported that Pacific Electric Railway company would grant right-of-way for street crossing at this intersection provided the city of Glendale pay the cost of the initial improvement and we were instructed to investigate and report as to the estimated cost of such improvement.

"We have obtained from the Pacific Electric Railway company an estimate of the cost of paving this intersection between their tracks and two feet on either side thereof, the total of which is \$310. This estimate includes ballasting and replacement of ties as well as other items incident to reconstructing the railroad tracks over this crossing.

### Engineer Makes Reply

"We wrote E. C. Johnson, chief engineer of the Pacific Electric company, calling attention to these items, suggesting that they were not properly chargeable to the cost of paving the intersection. Mr. Johnson replied, explaining that while the railroad tracks at this intersection do not require reconstruction at this time the improvement of the road crossing for street purposes would make it necessary that the road bed be overhauled to afford a substantial base for the pavement. Furthermore, it is essential to obtain a sound footing to give the proper life to the crossing and avoid constant repairs to keep it in good condition.

"In addition to the paving of the right of way between the tracks and two feet on either side thereof, it will require 1900 square feet of five inch concrete to complete the paving of the crossing. This is estimated at 30 cents per square foot or \$570. Adding \$138 for incidentals makes the total estimated cost \$1,518.

### Ready to Grant Easement

"The Pacific Electric Railway company is proposing to grant the city an easement for street purposes over this crossing on the basis that the company be relieved of paying any portion of the cost of paving, the company to take care of maintaining that portion of the paving between their tracks and two feet on either side thereof.

"In considering the acceptance of this easement on the above basis, consideration should be given to the means of financing the necessary expenditures involved in view of the action of your board directing the city attorney to petition the railroad commission that an order be given to the Pacific Electric Railway company to open up thirteen additional crossings over the Pacific Electric tracks on Brand boulevard.

"The total cost of improving all of these track crossings based on the above estimate would be \$21,252. The cost of paving these fourteen crossings between the railroad tracks and two feet on either side thereof would be \$11,340 and the cost of paving the balance of the several crossings would be \$9,912."

At the order of President Dwight W. Stephenson the communication was referred to the committee of the whole.

### BOXING KANGAROO

The only "performances" of wild animals pleasing to reflective persons are those based on natural habits and instincts. As kangaroos support themselves on their hind legs and tail, which form a tripod, the forelegs are left free. Nothing resembling the grasping hand of monkeys has been formed, but the free limbs are used in many ways suggestive of human action. In courtship the males caress the females with their forepaws, and in combat, playful or serious, they stand up to each other, going through the movements of boxing and wrestling.

A very little encouragement, such as has been employed with a large red male in the Kangaroo sheds, turns this natural trick into a good imitation of a boxing match. The animal stands up to the keeper, wrestles with him, aims and parries blows, feints and dodges with his head. He has even some of the illegitimate tricks, such as the savate, and with his powerful hind limb he could strike a most serious blow. But a little scolding stops this tendency, with the result that bouts of a few minutes, obviously enjoyed by the animal and the keeper, and very interesting to visitors privileged to see them, are gone through.

### OVERHEARD IN THE CARS

First Stenog (reading)—Think of those Spaniards going 3000 miles on a gallon.

Second Stenog.—Aw! You can't believe all yuh hear about them foreign cars.

Disputes are usually contests between two men in error, to ascertain which one of them harbors the greater.

GLENDALE, July 2, 1921.

Dear Katie: Well, this mornin I went down to the office as is usual feelin as fall of the blues as I really was full of oat meal and fried cakes. I decided as how I had got to the commencement of the limit and I was goin to tell the boss as how I got to have a vacation. So I walks up to him and I was lookin as pessimistic as a pig in the parlor.

Well, he says to me, what's the matter now?

Oh, nothin. I says, kinda off-hand, only last night I had a dream as how I was away on my vacation and I spent 2 weeks and \$11 up at Bear's Lake. Of course, I says, I had a nice time swimmin by myself and dancin with the dames and catchin a couple arm's full of rainbow's trout, which was all right, in a way, but they didn't weigh much. And then, I says, I went boatin and hikin and had lots of fun. And everyday the postman bring The Glendale Evening News to me, (the same which is mailed free of gratis to subscribers, Katie), and it was as welcome as gettin money from home. Then, I says, I went up to pay my hotel bill on the last day.

I got into an argument with the chief clerk and clerk that owned the hotel, on account of the bill he handed me bein more than the whole place was worth and then all to once I called him a robber whereat he just slammed me on the nose for a home run and that's where I went. And then I woke up and opened my dark eyes and there I was with my head on the floor and my feet on the pillow and it was all a dream.

### Failed to Penetrate

Well, Katie, I looked at the boss to see whether did he get the hint or not, but he didn't say nothin, so I says as how I was glad to be back in Glendale again, cause it's always nice to get back home again after gettin all tuckered out and sunburnt and bit up and havin to part with the families jewels to pay the hotel bills and everything.

Well, then the boss smiled kinda pleased at me and I begun to wonder whether as how I better go to Oakland or Hollywood for my vacation, when all to once he says to me that seem I had got all the excitin thrills of being away for a couple or six weeks and of having the joy of gettin home again and the whole trip didn't cost me nothin, he says as how he guessed I better get back on the job again and not loaf around all summer.

Well, at that, Katie, I could see where I had as good a chance for a vacation as Philadelphia has got of winnin the pennant. Anyway, I couldn't seem to make no headway in the matter, so I says to him as how I ain't been nowhere yet. Of course not, he says, but he says as how I'd had a nice dream and so it would be easy to imagine as how I'd had a couple of pleasant weeks at Bear's Lake free for nothin, Katie, can you imagine that? Neither can I.

### Just Visualization

Well, then, I says, right back at him as what's the use of his going home to lunch at noon, cause couldn't he just imagine as how he'd just got back and wasn't hungry anyway.

Well, Katie, that settled the argument, so I started out to write a article about somethin which in itself is a innocent pastime for striv- ing reporters.

And someway I begun to feel better about the matter and I begun to think as how the boss was right, after all.

Of course it wouldn't be so hard to imagine as how I'd had a nice vacation up at Bear's Lake, instead of its bein all a dream, if it wasn't for my elbow which the same got a awful bump when I fell outa bed.

Well, Katie, that's all the vacation I'm going to get this summer anyway, so I might as well feel that I had a nice time.

Yours—I imagine.

E. C. HALE.

### X-RAY DETECTIVE

The X-ray was discovered unfortunately for smugglers. As an assistant to customs officers it has proven invaluable.

Take for instance the cake of soap which erstwhile was so safe a hiding place for diamonds. It is not serviceable for that purpose any longer, because a radiograph of the soap cake shows the gem concealed within it.

Shoe heels and shaving brushes are likewise made useless to the smuggler of precious stones, who formerly was able to rely upon them for escaping the payment of duty. Even coat buttons fail. The X-ray sees through them all.

The bowling team of Glendale lodge of Elks, No. 1289, met defeat last night in a match of three games played with Long Beach Elks on the Glendale alleys last night. ### FAME AS SHAFT BUILDERS

An American and an Englishman were discussing the merits of their respective parents.

"Ah!" said the Yankee. "I guess my father was a clever man. He was a chimney shaft builder and made himself famous with the last shaft he erected."

"Sure thing," continued the American. "It was so high that when the weathercock became stuck the man who went up to put it right had to take a week's rations for the journey."

"Oh, he," laughed the Englishman, "that's nothing. My father was also a shaft builder, and the last one he built was so high that he had to go up every night and take the top off to let the moon go by."

The chief fault of our system is that the man big enough to handle a government job can't afford to fool with it.

## JACK DEMPSEY WINS FROM CARPENTIER BY KNOCKOUT

Champion Defeats Frenchman In Fourth Round In New Jersey Arena

(Continued From Page 1.)  
Carpentier retreated with Dempsey in pursuit. They fought continually for a clinch. Carpentier tried two left jabs and a right swing. Dempsey shifted and missed with right. Carpentier tried right for body and left for head but missed. Clinched. CARPENTIER'S ROUND. Dempsey was almost out in the middle of the second.

ROUND 3—Dempsey bored in. Carpentier dancing away. Dempsey landed right to head but it was too high. Carpentier returned the compliment. Carpentier missed terrific right and uppercut in the face and missed on a third attempt. In a clinch Dempsey pounded head and body with both hands. Carpentier missed another right and almost fell to the floor. Dempsey missed left hook to head and landed with same blow. Clinched. Both beat body. Dempsey pounded head with left and right, staggering Carpentier. Dempsey jabbed Carpentier's face. Clinched. Carpentier missed left and right to head. Clinched. On the break Carpentier danced away and again missed with both hands. In close they pummeled without damage. Ten seconds before the bell Dempsey landed two lefts and two rights to the head and jarred the Frenchman. DEMPSEY'S ROUND. Carpentier seemed to be losing steam. His blows lacked force and he was visibly tiring. He missed frequently.

ROUND 4—Carpentier retreated. Dempsey caught him and pounded head and body with right and left, but could not find the mark. Dempsey uppercut with right to the face, but on the break Carpentier leaped in with right to head. Dempsey floored Carpentier with right to body. Dempsey landed right to body, flooring Carpentier to a count of nine. When he arose Dempsey tore after him like a tiger and before the challenger was thoroughly set Dempsey stopped him with another right and Carpentier went down for the full count.

Be impervious to mere gossip. Even a good book is talked about behind its back.

## Ha! Ha! Do News—Want Ads Pay? They Surely Do! Ha! Ha!

Ha! Ha! Ha! Ha!  
That was the greeting Thursday over The Glendale Evening News telephone.

"Take that ad for a Cadillac chauffeur out of the paper. Ha! Ha! Ha! Ha!"  
Inquiry as to whom the advertiser was revealed that it was none other than Mrs. N. C. Robinson of 1648 Kenneth Road.

She was laughing in glee at the wonderful results one thirty-cent advertisement obtained.

"The telephone bell has been ringing all afternoon," she said. "I have a score or more chauffeurs at my command. Your paper certainly is a splendid medium. But be sure and take out the ad."

It is out today, yet there are other opportunities for unemployed or those who want to buy, sell, rent, trade, etc. The Glendale Evening News leads all other papers in southern California towns of similar size in the volume of classified advertising.

And they sure get the results!

## GLENROSE PARK IS BEAUTY SPOT OF THIS VICINITY

P. L. Hatch, Superintendent of Montrose Railway, Urges C. of C. Advertise Place

The beautiful Verdugo hills surrounding Glendale will shortly become a popular center for picnickers and visitors, according to P. L. Hatch, Superintendent of the Glendale & Montrose railway. Mr. Hatch is of the opinion that Glendale is overlooking an opportunity to attract visitors here by not properly advertising the natural beauties in the surrounding country, and has addressed a communication to the Chamber of Commerce, asking its co-operation in this matter.

Glendrose park, one of the many natural beauty spots around Glendale, is an ideal spot for picnics, possessing an abundance of natural shade, drinking fountains, rest rooms, benches and playgrounds. Mr. Hatch states that arrangements can be made for the entertainment of guests, and that the Glendale and Montrose railway is ready to co-operate in the matter of arranging transportation.

The communication is as follows:  
Text of Communication  
"Glendale Chamber of Commerce, Glendale, Calif.:

"Gentlemen: The Glendale & Montrose railway has recently opened for public use a picnic park and playground, which is at present in a prefinished state as compared to what is planned. However, it is an opportune place for Glendale picnic parties, in that it is easily reached from Glendale, and its surroundings appeal to all who enjoy the natural scenic beauties found only in the hills of Southern California.

"Glendrose Park, as it has been named, is at the end of the La Crescenta car line, at an elevation of 1400 feet. Drinking fountains have been installed, swings erected, tennis courts and a ball ground laid out, rest rooms opened, and lunch tables put up for the accommodation of parties, large or small.

**People Should Enjoy Park**  
"We are anxious for the people, not only of Glendale, but also of the neighboring cities, to become acquainted with Glendrose Park, believing that if the advantages of this natural beauty spot are properly brought to their attention that Glendrose Park will become one of the most popular picnic places in the vicinity of Los Angeles.

"Knowing the Glendale Chamber of Commerce is desirous of accommodating parties making inquiries in such matters we feel that the information contained herein may be of mutual benefit.

"You may count on our hearty co-operation in arranging special transportation and in all other matters concerning this matter.

"Very sincerely,  
"P. L. HATCH,  
"Superintendent Glendale and Montrose Railway."

## Men May Live Under Water As Fishes Do

PARIS—"Will control of the bronchial tubes" is easily learned, enabling men to live under water the same as fishes, according to General R. Bourgeois, of the Academy of Science.

As a proof of his assertion, he cited the exploit of Mayor De Laly-man of Mezin, who stayed under water in the Trocadero aquarium for three or four minutes, declaring he did not experience the slightest inconvenience. General Bourgeois declared that the secret consists in creating a reservoir of air in the throat.
